<h2>Academic Year 2018/2019</h2>
*** Not available in the academic year indicated above ***

Research and professional development planning is an integral part of the Structured PhD programme at UCD. The purpose of such planning is to ensure that a student s work is clearly focused on achieving research and professional development goals. This will play a major part in informing the trajectory of the student s research and in their training and development as a researcher. The RPDP is also a useful resource when it comes to writing-up and plays a key role in the student s Transfer Assessment process.
