

University College Dublin
Ireland's Global University

Master of Regional & Urban Planning (Two Years Full Time)

In today's complex and rapidly changing world, with the threats posed by climate change, economic crisis and rapid urban growth, planners face the challenge of creating places that combine environmental quality with a vibrant economy, quality of life and distributive justice. This two-year professional planning degree develops the requisite conceptual knowledge and practical skills required by planners in this increasingly complex environment. You will develop an understanding of the administrative, legal and policy frameworks in which spatial planning operates and the social, political, economic and

environmental challenges facing planning. In addition students develop practical skills for plan & policy making, including environmental assessment, retail assessment, public participation methods, development & project management, and GIS.

Depending on your interests, you choose to specialise in either development and design, or environmental planning. The Master of Regional and Urban Planning is accredited by the Royal Town Planning Institute and the Irish Planning Institute and these qualifications are recognised internationally.

Why study at UCD?

Tradition

Established 1854, with 160 years of teaching & research excellence

Global profile

UCD is ranked in the top 1% of higher education institutions worldwide

Global community

Over 6,000 international students from over 130 countries study at UCD

Global careers

Degrees with high employability; dedicated careers support; 2 year stay-back visa (for non-EU students)

Entry Requirements

- A primary degree with minimum lower second class honours award (GPA at least 2.8) or international equivalent in any academic field, but with a preference for fields of study related to planning.
- Applicants whose first language is not English must also demonstrate English language proficiency of IELTS 6.5 (no band less than 6.0 in each element), or equivalent.

International Students

- Stay in Ireland after graduating for 24 months to seek employment
- Approved by US Dept. of Education for federally supported loans
- Apply for Non-EU Scholarships: www.ucd.ie/international/scholarships

Related Masters Programmes of Interest

- MSc Urban Design and Planning
- MSc Environmental Policy
- MSc Environmental Science

Graduate Profile

Luke Wymer, Graduate

The variety of modules on offer initially led me to choose the MRUP as a postgraduate programme. The selection of classes available within the programme is diverse, ranging from practical studio based modules to planning theory, economics, and planning law. This diversity is enhanced further by guest lectures from planners and other experts working in state bodies, NGO's, and private planning consultancies. An approachable group of lecturers and professors deliver the course, with lots of direct contact and feedback throughout. The MRUP leads to good employment opportunities in Ireland and abroad due to the accreditation of the course by the IPI and RTPi. Since I finished my degree in the Summer of 2017 I have been working with a busy planning consultancy here in Dublin. Working as a planner is always interesting with lots of variety from day to day and many opportunities to keep learning.
