

University College Dublin  
Ireland's Global University

## MEngSc ELECTRONIC & COMPUTER ENGINEERING (ONE YEAR FULL TIME)

Ireland has evolved into one of the world's most important centres for high-tech businesses.

The ICT sector in Ireland is a thriving and growing industry with 9 of the top 10 global ICT companies maintaining a presence in Ireland.

The economic contribution of the sector is substantial with the ICT industry currently responsible for approximately 25% of Ireland's total turnover, representing one-third of Ireland's exports by value. The MEngSc in Electronic & Computer Engineering is a year-long

programme designed to provide training for engineers who wish to work at a high level in the electronic and computer sectors worldwide. You will develop an advanced understanding of the theory and technology of modern electronic and computer systems and their business environment. You will build your knowledge through taught modules and project work and you will learn about design, innovation and problem solving at a level significantly beyond that of your primary degree.

### GRADUATES ARE EQUIPPED TO FILL THE IRISH ICT SKILLS GAP

Delivered by a highly research-active School composed of many internationally high-profile academics including five IEEE Fellows. This master's provides intensive training to up-skill students to meet the needs of the growing Irish ICT sector.

### WHY STUDY AT UCD?

#### Tradition

Established 1854, with 160 years of teaching and research excellence

#### Global profile

UCD is ranked in the top 1% of higher education institutions worldwide

#### Global community

Over 8,000 international students from over 139 countries study at UCD

#### Global careers

Degrees with high employability; dedicated careers support; two-year stay-back visa (for non-EU students)

#### Safety

Modern parkland campus with 24-hour security, minutes from Dublin city centre

### COURSE CONTENT AND STRUCTURE

90 credits  
taught master's

60 credits  
taught modules

30 credits  
dissertation

Designed to meet the demands of modern high technology industries, this MEngSc covers topics from electronic engineering and computer science to business, delivered by internationally renowned academics. The modules that you take will depend on your interests and on your prior education.

Modules cover the following topics:

- Advances in Wireless networking
- Analogue Integrated Circuits
- Computer Science for Engineers
- Control Theory
- Digital Communications
- Digital System Design
- Enterprise, Innovation and
- Entrepreneurship
- Foundations of Computing
- Networks and Internet Systems
- Neural Engineering
- Numerical Algorithms
- Operating Systems
- Performance of Computer Systems
- Photonic Engineering
- Processor Design
- Research Skills and Techniques
- RF Electronics
- Software Engineering Project
- Signal Processing
- Wireless Systems

## CAREER OPPORTUNITIES

There are excellent job opportunities available in the ICT sector in Ireland. The Irish Government is to amend the work permit processing system in a bid to attract overseas workers to fill skill gaps in crucial areas like ICT and engineering. The Government has an ongoing commitment to generate thousands of jobs in the ICT sector every year.

At present there are as many as 5,000 job vacancies in Ireland's burgeoning ICT sector and this gap could grow as Ireland hurtles towards becoming the digital capital of Europe. Prospective employers include: Accenture, Analog Devices, Intel, Microsoft, SAP, Synopsys and Xilinx.

## FACILITIES AND RESOURCES

The UCD School of Electrical, Electronic & Communications Engineering has state-of-the-art electronics and computer laboratories.

### APPLY NOW

This programme receives significant interest so please apply early online at [www.ucd.ie/apply](http://www.ucd.ie/apply)

## ENTRY REQUIREMENTS

- A 4-year bachelor's degree with a minimum upper second class honours (NFQ level 8) or international equivalent in an Electrical, Electronic or Computer Engineering programme.
- Applicants whose first language is not English must also demonstrate English language proficiency of IELTS 6.5 (no band less than 6.0 in each element), or equivalent.
- Students who do not meet the IELTS requirement may wish to consider taking the Pre-Sessional or Pre-Master's Pathway full details <https://www.ucd.ie/alc/programmes/pathways/>

## INTERNATIONAL STUDENTS

- Option to stay in Ireland to seek employment and/or work for 2 years after graduating
- Approved by US Dept of Education for federally supported loans
- Apply for University non-EU Scholarships: [www.ucd.ie/global/study-at-ucd/scholarshipsfinances/scholarships/](http://www.ucd.ie/global/study-at-ucd/scholarshipsfinances/scholarships/)
- Apply for College of Engineering & Architecture non-EU scholarship: [www.ucd.ie/eacollege/study/nonescholarships](http://www.ucd.ie/eacollege/study/nonescholarships)

## RELATED MASTER'S PROGRAMMES OF INTEREST

- ME Electronic & Computer Engineering
- ME Optical Engineering
- MSc Advanced Software Engineering
- MSc Computer Science NL (Negotiated Learning)
- MSc Digital Investigation & Forensic Computing
- MSc Information Systems

## FEES

Fee information is available at [www.ucd.ie/fees](http://www.ucd.ie/fees)

## STUDENT PROFILE

**Sudharsan Rajasekaran**  
Intel

I was working as an assistant software engineer in India, having obtained my bachelor degree in electronic engineering. I had a thirst to further my education in technology engineering and as such, I started searching for a master's-level education choosing to do the MEngSc Electronic and Computer engineering at UCD. During my course I was taught the problems that industries are currently facing, making it incredibly relevant. The course was quite brilliantly structured between hardware (Electronics) and software (Computer Science), designed in a way to learn by practice, offering me the confidence to face today's industrial demands. The course also offered a module on entrepreneurship which I believe to be incredibly important for my future Engineering career. Right now I am working alongside leading researchers for my master's project which is guiding me on the right career path and I truly believe that I will be one among tomorrow's industrial leaders. Moreover, I am proud to be a UCD student because it has one of the best campuses in the world.
