Title:	James G Lacy Award for Project Excellence in ME Programmes
Award Type:	Award
Programme Description:	
Long Description:	The James G Lacy Award for Project Excellence in ME Programmes is a major new award for the best Master of Engineering (ME) project that demonstrates excellence in the innovative application of electrical engineering principles within the full range of disciplines of Engineering in the College. Projects with an interdisciplinary focus across these domains are especially welcomed. The award will be made following nomination by relevant ME Programme Coordinators and decided by a committee of senior professors chaired by the College Principal. The award will consist of a cash prize of EUR1,000 and a commemorative plaque. It will be conferred at the Engineering Awards day organised by the Engineering Graduates association in early September. The award has been instituted in honour of Professor James G. Lacy, Professor Emeritus in the School of Electrical and Electronic Engineering. It has been made possible through a generous donation by Liam Madden, a former Electronic Engineering graduate from UCD, who is currently an Adjunct Professor in the School and Vice President of the Xilinx Corporation based in Silicon Valley, California.
Value:	1,000
