Event:	PDCD161765 - PhDs working in Biopharma
Subject:	
Event Overview:	This session aims to enhance your knowledge and confidence so that you can be clearer about the kind of work suitable for PhDs in the biopharma sector. You will be welcomed to NIBRT with a tour of the facility and a short talking by Killian O Driscoll about Project Management in Biopharma. This will be followed by an interactive workshop on the basics of Six Sigma with Dr Sean Kelly, Global Programme Manager with Abbott. Towards the end of the session, there will be a Q&A with Sean about own career path and time for lunch/ networking for anyone who wants to discuss potential PhD-focused jobs in Abbott
