<h2>Academic Year 2019/2020</h2>

This module will support postgraduate students to develop advanced skills associated with their research. Examples include psychometric assessment, specialised technical skills, and new research methodologies. Students registering for this module will be required to identify skills relevant to their research/study (as agreed with their supervisor) and document the process involved in developing these skills. Finally they must make a presentation to students and staff in the School of Psychology on issues in their chosen area of training.
