

# MArchSc Sustainable Building Design & Performance - Programme Details - UCD Graduate Studies

MArchSc Sustainable Building Design & Performance  
Graduate Taught (level 9 nq, credits 90)

The Masters Sustainable Building Design & Performance taught masters programme is for those seeking to develop a career or hoping to undertake further studies in sustainable building analysis and design. It supports students to define themselves within the fields of sustainability, architecture, energy, environment and health.

- Students are encouraged and supported in the pursuit of a broad range of inter-related issues through active enquiry and autonomous investigation.
- The programme provides a learning environment within which each student is encouraged and can make a unique and individual contribution as well as being part of a team. It is delivered through lectures, seminars, tutorials and individual and group project work, all supported through contact time in class, individual supervisory sessions and online course content.
- The programme is designed to place value on each individual and their contribution to the group, supporting their development through an inclusive, exploratory and encouraging learning environment.
